### **Written Testimony**

Again, I will reiterate that we need to be putting in place laws and regulations that make for a healthier, safer, cleaner community which draws MORE income to the state, not make this a smog-choked, dirty, noisy Hong Kong style of an island. I really think we are at a major crossroads here. What you decide will effect generations and the entire look and feel of this beautiful island. Bill 8 would require every project's Complete Streets checklist be brought before the City Council for their approval before the project can receive any funding. This would translate into literally thousands of projects being brought before City Council, which would mean delay and many projects simply moving forward without any Complete Streets improvements - the exact opposite of what are Complete Streets law was intend to do.
